

Latest technology, manageability, and security to keep your business up

HP recommends Windows Vista® Business.

HP Compaq dc7800 Business Desktop PC

The HP Compaq dc7800 Business Desktop PC is designed for businesses that require best-in-class lifecycle management, solutions that keep you up and running securely, as well as specialised designs to fit your individual needs. Plus, you can rely on the built-in engineering expertise so you can make the right choice and spend more time concentrating on your business success.

Helping to keep you up and running securely

HP Compaq dc7800 PCs help to protect your physical and intellectual properties with an enhanced assortment of security tools so you can customise your PC to fit your needs. Get more effective identity protection with HP ProtectTools™ security software suite, which offers an extremely powerful set of multi-factor authentication and access controls. Additionally, keep your users up and running while securing data with optional RAID 1 configurations. The HP Backup and Recovery Manager can help minimise disruption and protect your data against corruption. PC security locks and remotely manageable HP Solenoid locks can also help safeguard your physical assets against theft or tampering.

Best in class lifecycle management solutions

Increase the efficiency of planning, deployment and transition of PCs with a variety of proven manageability tools you can use such as HP Client Manager. The HP Compaq dc7800 PC is designed to deliver superior technology, longer lifecycles, and support upcoming technologies so you can maximise your IT investment. The stable software image and 15+ months of platform stability help you maintain a more consistent work environment and minimise support costs. Finally, our free Change Control and Proactive Notification service provides valuable information to help you eliminate guesswork and enhance proactive planning.

Specialised designs to fit your needs

The flexible choice for business, the HP Compaq dc7800 PC offers power-efficient options and innovative form factors so you can create the PC that fits your environment. Select Intel® vPro™ Professional platforms, featuring Intel® Active Management Technology 3.0 and support for Intel® Virtualization Technology, for added manageability and security benefits. The HP Compaq dc7800 PCs have flexibility and productivity features created for businesses like yours so you can focus on your business success, not your PC.
