

NEC MEDIA PLAYER

ORDER CODE: Slot-In Version 100012498 External Version 100012261

DS Content Management Solution

The easy and cost-efficient way to feed powerful video and audio content to NEC public displays.

DELIVERING GENUINE BENEFITS

Complete Digital Signage Solution comprising of hard and software.

Scalable Supports up to 20 players controlled through network or USB.

Easy to use User friendly and intuitive user interface.

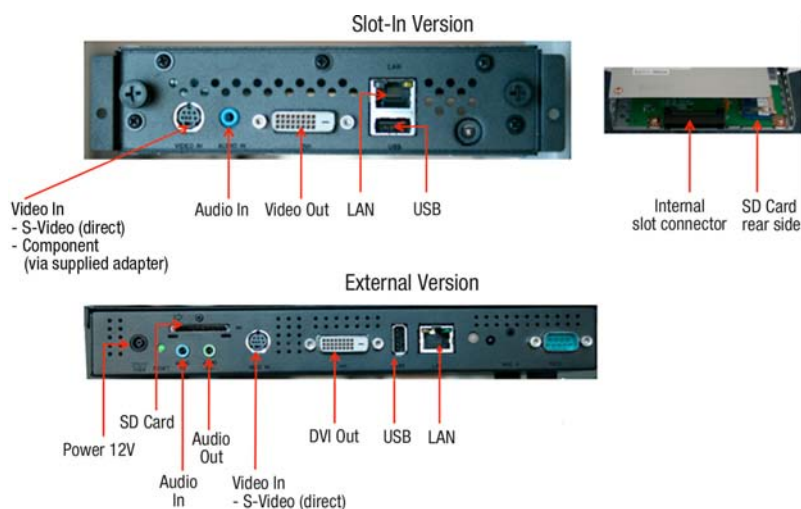

Performance Very powerful hardware player to support 1080p content + ticker.

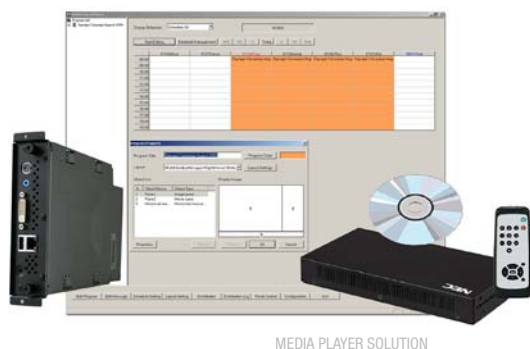

External Version Any display device with a DVI input.

Slot-in Version NEC MultiSync® P401, P461, P521, P701, X461UN, X461HB, MULTEOS M401, M461.

EXTERNAL OR SLOT-IN VERSION

- **INSTALLATION** First you have to install the Authoring Software on the computer you will use to create and manage your content. In a simple way, you will be able to setup your "panel" giving all information about IP address (Static, HDCP, offline) and create your play list and your distribution list.
- **POSSIBILITY** Thanks to the additional DVI Output connector of the Slot-In Player, you will be able to send the content to another screen/projector. The NEC MediaPlayer Solution gives you the possibility to send content up to 20 players using LAN network but also using an USB Stick device is LAN Network is not available.
- **TWO VERSIONS** The internal and external versions can be perfectly mixed on a same installation; this particularity gives you the opportunity to send content on all kind of NEC Display Solutions products.

Energy Efficiency: Very low power consumption
Ecological Materials: Minimal use of harmful materials

Save printing waste. All NEC Datasheets are available for download at our website www.nec-display-solutions.com
