

## WATCHPAX 2

Plug-and-play media player  
with built-in WATCHOUT.  
Two video outputs.

# WATCHOUT MEDIA PLAYER

WATCHPAX is a dedicated media player for WATCHOUT shows. The sleek, plug-and-play unit has a built-in WATCHOUT license making it a cost-effective solution for smaller installs.

### Powerful and portable

WATCHPAX media players combine a compact footprint with great performance. WATCHPAX features two Mini DisplayPort video outputs.

Measuring just 127 x 148 x 22 mm, the unit is small enough to sit right next to a display, keeping the hardware close to the display source and cable lengths short. It's ideal for installations where space is tight, or when you need an easily portable system.

Each WATCHPAX drives up to two displays. Multiple players may be used in installs.

## Overview

WATCHPAX is a compact, solid-state media player for use in Dataton WATCHOUT multi-display rigs. Each unit has a built-in WATCHOUT license and a technical specification, ready-tuned and tweaked for your next WATCHOUT show. WATCHPAX has two Mini DisplayPort video outputs and multiple units can be used in the same installation.

## Performance

- Plug and play – fast and easy to install
- Built-in WATCHOUT license
- Dual mode Mini DisplayPorts, resolution up to 2560x1600 (WQXGA) per output
